Wilderness Waterway

A well-marked inland water route runs from Flamingo to Everglades City. Sequentially numbered markers guide you along its 99 miles (160 kilometers). Boats over 18 feet (6 meters) long or with high cabins and windshields should not attempt the route because of narrow channels

Message to Boaters

Do not use this map for navigation. For safe boating, National Ocean Survey charts are indispensable. Charts 11430, 11432, 11433, 11451 are for sale at the Coe Visitor Center, Flamingo, and in the Everglades City area. Keys and beaches in Florida Bay are closed to landings unless otherwise designated. Commercial fishing is prohibited in the park. Recreational fishing requires a license in both freshwater and saltwater. Where backcountry camping is allowed, a camping permit is required.
